

Water Resource Management & Irrigation Seminar

February 22, 2019

10 A.M. - 3 P.M.

Lunch Provided

with pre-registration by

February 15.

This workshop will help producers understand the technical aspects of selecting and operating an irrigation system. Topics covered include:

- irrigation system components** •**irrigation plan**
- water source/pumping** •**application rates**
- maintenance and operation**

After lunch, participants will “build” an irrigation system.

In addition, Natural Resources Conservation Service programs to help producers will be discussed. Our speaker will be Gary Hawkins, UGA Water Resource Management and Policy Specialist.

Lunch will be provided for registered participants.

Please register before February 15, by calling the Georgia Mountain Research & Education Center at 706-745-2655.
